## Feature Horse

### **Big John**

Owner: Andrews Rodeo Co.  
13 yr old Grey Stud

Here is one of the biggest bucking horse producing stud in the business, purchased from John McNeely in 2006. Has sired proven saddle broncs like Johnny Boy, Baby Huey, Popeye and many others that are currently being hauled by Don Hutsall. He has been used by Dale Kling and myself the last 4 years. We have a lot of colts out of him that are showing extremely well. I don't need him anymore, so if you need the size and bone here is a proven producer with a lot of colts

coming up. His breeding is Shire/Percheron cross and was originally purchased because of his colt's performance.
