Have bucked him for 3 years. He will buck straight away & once in a while buck in a small circle. Aver points have been from 19-24 at Bronc matches & rodeos. He is a horse that bareback riders will drive for miles to get on because of his style. You ride him right & you will go to the pay window.

Have bucked him for 4 years. He jumps and kicks straight away with lots of power. We have bucked him in the long & short go in rodeo's and bronc matches. The riders really like him. Hauls good, loads in the chute really well and is always easy to handle. Have to see him to appreciate him!
