Bucking Horse Sale

WWW.DALEKLING.COM

I'd like to welcome everyone to the 26th Annual Breeders Classic Bucking Horse Sale. It feels just like our very first sale with Shane Franklin along with David and Laurie McDonald returning. These consignors have been with us for years supplying some of the best bred bucking horses in the world.

Due to hard times and health concerns we have the opportunity to feature Gene Allen's long time bucking horse breeding program. We are proud to be selected to represent the dispersal of these great bucking horses.

Bruce Flewelling, another long time bucking horse breeder and cowboy willed this set to Gene & Joy Allen in his last days for them to carry on his legacy. Health concerns have contributed in their decision to now pass these bloodlines on to someone else. These bloodlines carry some of the greatest, true blue bucking horse traits.

I wish you all good luck and thank you for coming to the sale.

Dale

You can futurity with him

next year and make some money with him, or you can let him grow up and start putting rider trips on him. He's built to buck, easy to handle.

MX342 Buckingham

Owner: MX Bar Ranch
9 yr old Black Stallion
Saddle Bronc Right Hand Delivery

LOT #33

This is a 17HH, 1600 lb. stallion that you will get well built well sized offspring from, as well as you can buck him. Buckingham is our ranch raised stallion we have used now on our mares for five (5) seasons.

Buckingham is a product of our almost 30 year breeding program. We have spent a lot of years putting our best stallions with our best mares to come up with outstanding bloodlines that both cowboys and contractors can take to the bank. Buckingham comes from several generations of great buckers AND NFR buckers. He is quite a big stallion, standing about 17 hands and weighing in about 1600 lbs.

Buckingham's dam is MX 38 Santana, out of Blue Jeans (dam to NFR Way Too Cool), she was a Lakeland Rodeo Association Bareback Horse of the Finals and an Indian National Finals Rodeo Saddle Bronc Horse of the Night in Las Vegas. Santana is also dam to our other breeding stallion, Earp, and a mare we kept and put in our breeding program, MX 671 Mountain Girl, a bareback horse. A full brother to Mountain Girl, MX 571 Frosted Crop, we sold to Francis Rodeo Stock and they are using him in their breeding program now. Santana's sire was our Foggy Mountain – sire also to NFR Sacred Nation and NFR First Kiss and grandsire to NFR Black Knight who is a full brother to Buckingham.
