Broodmares

These mares are off the Nelson Ranch and are some of the best ones. Most have been around long enough and raised some of our best horses bucking today. Some of their colts will be performing at the sale. Most are pasture bred to T2, a Tooke stud, that we've raised some NFR horses out of. He is a big bay stud that was hauled and is proving to be a very good producer. Some of these mares will be selling with foals at side. We will have more information during the sale.

Jeremy Officer
4 yr old Black Bald

527 Bonneville Express is a four year old bull that I bought from Shane Franklin last year. This bull has really grown into an outstanding bull. He is starting to come into his own with the more trips we put on him. You can check his and any of my other bull's stats on probullstats under CNstars bull co. He has only been ridden one time since I have owned him and as far as I know in his life and that was by Ross Coleman. He bucked off JB Mauney in Nampa this year and he has only gotten better since that. The picture is of Clovis Crane in Sydney Montana at an Enterprise event. I really think a lot of this bull and I know you will also.
