

MX012 Rodeo Colours

2 yr old Bay Paint Gelding
Left Hand Delivery

This colt has been outstanding in the dummy futurities. He's either won or placed in both the Canadian Made Bucking Horse Futurities or the UBHA. Dam is Magpie, a NFR Kenny's Baldy mare and sired by our Earp, a maternal brother to our Buckingham and NFR Black Knight and a grandson to Grated Coconut.

MX828

4 yr old Brown Gelding
Bareback Left Hand Delivery

Started putting rider trips on this guy, only saddle bronc as we have very few bareback riders. His dam, MX040 Toots was a saddle bronc horse we bucked in the Bobby Pecora Futurities. His sire is 235 Rouge with a Twist (Scarlett Letter (Zinzer) over Moulin Rouge (Bridwell).

MX040 Fire & Smoke

2 yr old Dark Grey Gelding
Left Hand Delivery

This colt has some awesome trips in the dummy futurities. He is out of a SB mare, Fireball Annie, her maternal sister is NFR Black Coffee and her sire is NFR Chirrikawa. The sire to this gelding is Alberta Smoke, a full brother to multiple NFR Momma's Boy. We have put several dummy trips on this guy, and he bucks hard, stretches right out and jumps high every time. You can futurity with him next year and make some money with him, or you can let him grow up and start putting rider trips on him. He's built to buck, easy to handle.

MX835 Mountain Rock

4 yr old Grey Gelding

Bareback Left Hand Delivery

Youngster we dummy futurity with and then started with rider trips this year. Dam is MX375 Rock Your Socks, a saddle bronc mare sired by Spotty Crop, and out of a Foggy Mountain daughter and maternal sister to NFR Storm Cloud.

MX342 Buckingham

9 yr old Black Stallion

Saddle Bronc Right Hand Delivery

This is a 17HH, 1600 lb. stallion that you will get well built well sized offspring from, as well as you can buck him.

Buckingham is our ranch raised stallion we have used now on our mares for five (5) seasons. As with all our stallions, we usually only put 5-6 mares with them each year.

Buckingham is a product of our almost 30 year breeding program. We have spent a lot of years putting our best stallions with our best mares to come up with outstanding bloodlines that both cowboys and contractors can take to the bank. Buckingham comes from several generations of great buckers AND NFR buckers. He is quite a big stallion, standing about 17 hands and weighing in about 1600 lbs. He has good bone and is producing well built buckers out of our mares.

Buckingham's dam is MX 38 Santana, out of Blue Jeans (dam to NFR Way Too Cool), she was a Lakeland Rodeo Association Bareback Horse of the Finals and an Indian National Finals Rodeo Saddle Bronc Horse of the Night in Las Vegas. Santana is also dam to our other breeding stallion, Earp, and a mare we kept and put in our breeding program, MX 671 Mountain Girl, a bareback horse. A full brother to Mountain Girl, MX 571 Frosted Crop, we sold to Francis Rodeo Stock and they are using him in their breeding program now. Santana's sire was our Foggy Mountain - sire also to NFR Sacred Nation and NFR First Kiss and grandsire to NFR Black Knight who is a full brother to Buckingham.

We sold Black Knight (aka Roman Royal) as a 2 year old futurity horse to Pete Carr at Dale Kling's Breeders Classic Sale, (he won 1 st place) and he made the NFR the first time at 4 years old. Black Knight is also in Pete's breeding program, and you will see a lot of (Knight) offspring now bucking. Buckingham's sire is NFR Chirrikawa, an Oil Train offspring who also sired NFR Painted Valley of Vold Rodeo. Chirrikawa is now with Joe Simon, he went to the NFR the very next year that Joe purchased him from us. We put some dummy trips on Buckingham and he qualified for the UBHA Finals in Bowman, North Dakota, where he had an exceptional trip. Of the first 4 offspring he had in 2017, we sold 3 of the fillies and kept one into our breeding program.
