

Yellow Hair

Owner: Ryan Buckley

Palomino

Pickup Horse

As you can see he is gentle and easy to look at too. I have rode him in the feedlot, outside in some big country, and also in the arena. He is easy to catch, loads really well, shoes good and can keep up with about any bovine put in front of him. There are only 2 steers that ever got away. We were moving at a high rate of speed, hit a whole, and went head over heels. Got up, got around the steers, and went on with our day. If I were to die today, go to hell to chase the devils cattle. This is the horse that I would want to swing my leg over every day.
